Forest School

Forest school is a long-standing tradition at Holme Court School and we are extremely pleased that our own Kirsty has recently undertaken training to become our newly qualified instructor.

Forest school is very much a student lead endeavour, with lessons geared towards their interests. It teaches the students life skills such as communication, teamwork, perseverance, and resilience. Activities so far have included meet a tree, building animal habitats, and exploring the natural environment.

Campfire Cooking

Mrs. Roux has been working the Ash and Elm classes to complete an AQA award on cooking over a campfire. The groups had to collect the firewood, light, and maintain the fire. Then they cooked bread dough on a stick and made vegetable and barley stew in the style of the Anglo-Saxons.

All the students tried the stew despite their reservations about the vegetables included and most of them thoroughly enjoyed it, some of them enough to have second helpings!

Sponsored Walk

Well we did it ... 2 miles completed by all, we have the wet socks to prove it! So far we have raised an incredible £363!

Every £100 raised could provide two families with food for a month so we are well on the way to helping eight families.

Thank you all for your generosity.

Afterwards, we were all treated to hot chocolates.
